Thermal Replacement Print Stylus

Part #: R27-76 \$275.00
 (new design June 2009) (Schedule D)

Gasket to Panel Mount DR5000

| Part number | Description (Schedule D) | Price |
|-------------|---|---------|
| DR-811036 | Gasket to provide sealing when panel mount DR5000 | \$30.00 |

Notes:

- * Inputs #1 & 2 for both the ink & thermal recorder models share a common ground; isolated sensors are required (t/c inputs use ungrounded junctions)
- ** Thermal print recorder is configurable for single or dual channels via the front keypad. Two programmable inputs are standard on the thermal recorder.
- *** Not available on single pen ink model.
- **** Optional battery back-up ink recorders: real time clock is standard on thermal units. Thermal recorder will not operate on battery alone. Use order code "O".
- **** Optional Battery Backup provides up to 48 hours of continuous recording on ink style recorders without display; with display 24 hours of continuous recorder operation.

[Non-cataloged options - click here](#)

- Private Branding, Low Voltage power input, Transmitter Power Supply, 0-1VDC process input, special chart rotation, buzzers, etc.

UL & CE: The one & two pen Ink recorders are UL & CE; the Thermal print recorder is not UL Listed or been tested for CE compliance. Certain non-catalog options do not allow for UL label.
